

Biersach Qualification Procedure

Each of the players on a team in the current year is assigned a point value as follows:

Skip	7 points
Vice	5 points
Second	3 points
Lead	1 point
Others	1 point

Seven points from the same team in this year are needed to form a team for next year, thus a skip may abandon his team and form a new team with 7 points, his old team may have preference because it may have more points.

A team retains its position to curl in the Biersach event next year if it is substantially the same, as 3 out of 4 players and 7 points.

A preferred position would be if there are less than 24 teams, then the first offer goes to teams that have the most points from last year.

If a tie in the number of points exists, then the Biersach committee will make a decision seeding the tie teams.

After preference points teams are entered, then additional teams will be considered.

Teams without preference points that wish to be entered will be seeded by the Biersach committee, some criteria would be; competitiveness, longevity at the club, volunteerism.

Note; the intent of this policy is not to exclude any existing teams from participation but to develop a objective method to add new teams, if room exists.
