

Things to do when responsible for ice help:

- Have 1 or 2 of your teammates be ready to help 30-45 minutes before the first draw
- Things that absolutely need to get done are underlined
- Ask for directions if unsure of how to do any of the following

Before the pebble:

- Help clean up snow
- Mop the sheets
- Take one of the on-ice trash bins, empty all the other trash bins into it, then take it out
- Grab the vacuum from the closet next to the ladies' restroom and vacuum the boards
- Reset the scoreboards
- Help clean out the hack holes
- Wipe scuff marks off rock handles

After the ice maker pebbles the sheets twice:

- Nip only the sheets being used according to the diagram by the nipper
- Run rocks on the nipped sheets according to the diagram above the rock box
- Mop the sheets after the rocks are run
- Put hacks in
- Wipe water off the rock handles
- Anything else there is time for from the first section
